

Brass (Cu85Zn15)

Tubes

Material Designation		Chemical Composition (%)		Applications
ASTM	C23000	Cu	84.00 - 86.00	Sanitary Ware
JIS	C2300	Fe	<0.05	Architectural Ornament
INDIAN	CuZn15	Pb	<0.02	Autocar Oil Coolers
EN	CW502L	Zn	Remaining	Water Pipes
BS	CZ102			Fittings

Specification		Shapes
O.D	1.0 - 80 mm	Round
Thickness	0.10 - 8.0 mm	Square
Length	0.50 – 12000 mm	Rectangle
Temper	O , 1/4H , 1/2H , 3/4H , H , EH , SH	Hexagonal

Description
85/15 alloy is also known as Red Brass which contains 85% copper and 15% Zinc. It is an alloy used in numerous decorative applications. Also useful as a lower strength electrical connector due to its 37% electrical conductivity. This alloy is in tan - gold colour.

Value Proposition
<ul style="list-style-type: none">● Competitive Pricing● Flexible LME price fixation● Product Customization● Quality Assurance● Committed to deliveries● Standard export pallet packing
